

**2006 FLUID FORUM  
TABLE OF CONTENTS**

	<b>Page</b>
<b>The N, P &amp; K Outlook</b> , Al Mulhall, PotashCorp	1
<b>Transportation Logistics, Importing and their Associated Risks</b> , Mark Miller, Agriliance, LLC	23
<b>Turning Challenges into Opportunities</b> , Paul Fixen, Potash & Phosphate Institute	28
<b>Changes and Needs in Agronomic Research</b> , David Dibb, Potash & Phosphate Institute	37
<b>Changing Potassium Recommendations in Iowa and the Cornbelt</b> , Antonio Mallarino, Iowa State University	44
<b>Agronomical and Ecological Benefits of Liquid Fertilizer Injection Under European Conditions</b> , Martin Kuecke, Federal Agricultural Research Centre, Braunschweig, Germany	53
<b>Soybean Yield Potential and Management Practices Required to Achieve It</b> , Ken Cassman, University of Nebraska-Lincoln	60
<b>Understanding and Reducing the Risks of Post-Seeding Applications of UAN in Spring Wheat and Canola</b> , Guy Lafond, Agriculture and Agri-Food Canada	72
<b>Starter Band Placement for Potatoes in Calcareous Soil</b> , Bryan Hopkins, University of Idaho	88
<b>Seed-Safe Application of Fluids at Planting</b> , George Rehm, University of Minnesota	96
<b>Nitrogen Management in No-till and Conventional-till Dual-Purpose Wheat/Stocker Production Systems</b> , John Sij, Texas Agricultural Experiment Station, Texas A&M University	102

<b>Impact of Foliar K Source on Crop Response and Weed Control in a No-Till Glyphosate-Resistant Soybean Production System</b> , Kelly Nelson, University of Missouri	110
<b>Fertigation and Crop Load Affect Yield, Nutrition and Fruit Quality of ‘Lapins’ Sweet Cherry on Gisela 5 Rootstock</b> , Gerry Neilsen, Agriculture and Agri-Food Canada	116
<b>Irrigated Cropping System Effects on Soil Carbon and Nitrogen in Northern Texas</b> , Ardell Halvorson, USDA-ARS	126
<b>Use of Strip-Tillage for Corn Production in Kansas</b> , Barney Gordon, Kansas State University	133
<b>Improving Micronutrient Availability with Fluids</b> , Bob Holloway, South Australian Research and Development Institute	141
<b>Reactions and Processes Responsible for Effectiveness of Fluid Sources of Phosphorus, Zinc and Manganese in Soil</b> , Therese McBeath, Mike McLaughlin, University of Adelaide	147
<b>Optimum Placement of Phosphorus for Corn-Soybean Rotations in a Strip Tillage System</b> , Gyles Randall, University of Minnesota-Waseca	157
<b>Optimum Placement of NPKS Starter Fertilizers in High-Testing Soils</b> , Gyles Randall, University of Minnesota-Waseca	162
<b>Positional Availability of Phosphorus from Fall-Applied Surface Bands</b> , John Kovar, USDA-ARS National Soil Tilth Laboratory	168
<b>No-Till Corn Response to Banded K on Des Moines Lobe Soils</b> , Doug Karlen, USDA-ARS National Soil Tilth Laboratory	175
<b>Improving Phosphorus Nutrition in Wheat</b> , Cynthia Grant, Agriculture and Agri-Food Canada	181
<b>Using Banded Fluid Fertilizer to Improve the Economics of Rice Production in Texas: A Three Year Summary</b> , Mike Jund, Texas A&M University	192
<b>The Evaluation of Fluid Fertilizer as an N and P Source for Rice</b> , Timothy Walker, Mississippi State University, Delta Research and Extension Center	199
<b>Evaluation of Optical Sensor Based Nitrogen Algorithms for Corn Using Sidedress Liquid Applications</b> , Robert Mullen, University of Kentucky	207
