

XVI International Plant Nutrition Colloquium

“Plant Nutrition for Sustainable Development and Global Health”

Sacramento, Ca. Aug 26-30, 2009

The 16th International Plant Nutrition Colloquium will highlight advances in fundamental and applied plant nutrition, and emphasize the role of plant nutrition in food systems and environmental sustainability. The colloquium will attract the worlds leading researchers in plant nutrition, leaders in extension and policy design from government and private organizations and representatives of leading commercial enterprises.

Conference Themes

•Nutrient Acquisition, Homeostasis and Sink/Source Relations • Nutrient Management for Optimal Productivity and Sustainability • Tree Nutrition • Functions, Interactions and Diagnosis of Plant Nutrient Status • Impact of Environmental Stresses on Plant Nutrition • Plant Nutrition and Global Climate Change • Plant Nutrition for Human Health • Rhizosphere Biology and Soil Processes • Element Toxicity and Remediation • Nutrient Management in the Developing World

Conference Venue

The IPNC will be held in Sacramento, located in California’s Central Valley, one of the largest and most diverse centers of agricultural innovation and production in the world. The conference venue is close to many world-class attractions including the Tahoe basin, San Francisco, Napa Valley. The University of California campuses at Davis and Berkeley are located 10 and 100 kilometers, respectively, from the convention site and transportation will be arranged for delegates wishing to visit these sites.

Registration and call for papers now open.
